JUPITER OFFSET PRINTERS

PROFILE

Impressions that Differ...

Printing speaks its unique voice of distinction through state-of-the-art technology, exceptional quality and timely delivery. Established as a unique printing press in 1995, this family enterprise rose to its power of excellence in less than a decade. Today, it's one of the leading offset printing houses in Coimbatore.

Over the years, the printing entity gradually gained the momentum with the establishments of other divisions like Jupiter Print Pack India Pvt. Ltd., a full-fledged packaging unit set up in the suburbs of Coimbatore. This division is specialized in making all type of printed corrugated boxes. The momentum gained through the experience paved the way to begin a new entity exclusively for the purpose of printing and packaging, Jupiter Print Pack India Pvt. Ltd. The two units of Jupiter are located in a sprawling space with built-up factory area of 82,800 sq.ft (7692.3 sq. m).

Difference Speaks in Colors...

And Colors in True Sense

... from Pantone to Multicolour
... from Metallic to Fluorescent
and so on...
